

HANDBOOK OF RESOURCES AND SUPPORT FOR WOMEN VICTIMS OF GENDER-BASED VIOLENCE IN THE PROVINCE OF MALAGA

EDITION DATE: 2025

The information presented in this handbook has been provided as part of the **project Community Prevention of Gender-Based Violence**, carried out by the **NGO Malaga Acoge and supported by the State Secretariat for Equality and for the Eradication of Violence against Women**.

Any organisation interested in participating in future editions of this handbook or that wants to notify any change in the information and/or services provided should contact Malaga Acoge by using the following **form**.

Introduction:

We know that taking the first step is not easy, and that recognising and identifying gender-based violence is essential in order to seek support.

This handbook was created for the purpose of helping all women experiencing situations of gender-based violence. You will find practical information on different resources and organisations that provide services such as assistance, information, counselling, and support for cases of gender-based violence throughout the province of Malaga.

To facilitate access to this handbook, it has been published in several languages (English, French, Arabic, and Spanish). In addition, **each organisation provides a QR code** that allows you to access more detailed information, check updates, service modifications, or changes in contact details of the different administrations and organisations listed.

The resources and organisations are divided into those at the provincial level (general access) and the local level, focusing on the areas of the Axarquía, the Costa del Sol, the town of Antequera and the city of Malaga.
